

IT'S A RACKET!

by CLAUDE STUART HAMMOCK
An exposé of the clever schemes that swindle the American people out of millions of dollars yearly.

No. 25. "Expert" Criticism

John Valmar wanted to write fiction. He worked enthusiastically and produced several stories which he submitted hopefully to various magazines. However, as his collection of rejection slips increased, his enthusiasm waned.

Greenbelt, Built by U. S., Is to Operate as No-Profit Town

Tugwell's Model Housing Venture Becomes Reality Today

REAL DREAM TOWN

Sanitary, No-Slum Community Between Washington, Baltimore

This is the first of three stories on the nation's first federally built and owned town—and one of the most debated of all recent government projects.

By ALFRED FRIENDLY

NEA Special Correspondent

WASHINGTON—Rexford Guy Tugwell had a lot of ideas. Some people thought they were good, and some people thought they were very bad indeed, but good or bad, Tugwell had them—and the most hotly debated idea of them all has just been turned into a reality in the pleasant, spanking-new city of Greenbelt, seven miles out of Washington near the Baltimore road.

Greenbelt, in fact, is the idea—the nation's first federally built, pre-planned, non-profit community.

Two years ago the site of Greenbelt was a dreary waste of sub-marginal land, tobaccoed out by succeeding generations of farmers ever since Lord Baltimore's early colonists put a plow to the soil.

The Dream Town

Today Greenbelt is a fair city, complete in every detail, built to endure—and the embodiment of one of the most revolutionary and challenging experiments ever tried by the United States government.

It includes dwelling units for 885 families, a grade school and a high school, a movie theater, a business center, a lake for swimming, fishing and sailing, gardens and goodland, an athletic center, a system of roads and well-paved streets, a restaurant and a bar, a telephone exchange, a complete sewage and water system—and, most important of all, a plan.

The plan is for the federal government to own and operate the houses, to bring into them families from Washington and nearby areas, families whose total incomes range between \$1,000 and \$2,000 a year.

Schools Are Leased

The government, through an authority, acts as a rental agent, choosing its tenants, collecting rents, servicing the dwellings, and keeping them in repair. It will own, forever, all the buildings and land. The business structures it has leased to a co-operative corporation operating on a consistent Rochdale plan.

The citizens, in turn, will organize their own town government according to the city manager charter which the Maryland legislature granted, the first in the state.

Homes Not Startling

Although Greenbelt is an experiment, as well as a demonstration project, no revolutionary departures have been made in the architecture and physical setup of the town. Some 300 of the 885 dwelling units are in apartments of simple modern construction, but with few hitherto untried structural features. Almost all the rest of the units are in semi-detached houses, equally modern, equally non-startling.

The dwellings have been constructed with painstaking care and thoroughness. At the end of 10 years, say officials of the Farm Security Administration (successor to the Resettlement Administration), the homes will be in just as good condition as they are now. Reserves, set up in a sinking fund, will provide for repairs, and the fund will be indefinitely self-maintaining.

Varied building materials were used. Some houses are brick, others cinder block, others wood frame, with asbestos shingle and mineral wool insulation. Five are prefabricated metal, and admittedly the least pleasing to the eye, although doubtless quite as durable as the rest. Plumbing is of copper, kitchen equipment is lasting, and structural details are of the highest grade.

Walks Under Streets

The entire town is laid out in the shape of a great crescent, in the concave center of which is the business section. The two main roads from the boundaries of the quarter-moon, the houses lying in between, approached by connecting streets. Underpasses under the inner highway enable one to go to the school, business center, and the 20-acre athletic field without crossing the street.

Architecturally and physically, Greenbelt suffers no fetters, even from its sharpest opponents. While strictly modern, it contains few, if any, unproven innovations.

For their dwelling units—equipped with electric stove and refrigerator—Greenbelters pay between \$18 and \$41 a month. This sum includes taxes for the town's upkeep, heat for the houses and heat for water, but the electricity and the water itself. Additional payments for the two latter facilities are estimated to run about \$4.30 a month for the average family.

The average is about \$5.90 per room. Lowest rents are for the one and one-half room apartments; highest, the

4,000 Jam Local Stadium for Byrd High's First Visit

Powerful Shreveport Squad Runs Up 20 First Downs to Hope's 13

BRILLIANT BATTLE

Bobcats Come Back Valiantly to Score Again in Final Quarter

By LEONARD ELLIS

Byrd High School's powerful Yellow Jacket football team, champions of Louisiana seven out of the past nine years, defeated a pack of fighting Bobcats before a crowd of some 4,000 spectators here Friday night in a thrilling contest, 25 to 14.

Paced by Richardson, elusive Byrd halfback, the Shreveport team came from behind in the second quarter to put over two touchdowns and from then on held its lead.

Scoring touchdowns for the Yellow Jackets were Richardson two, Feducia one and Sweeney, one. Hope's two touchdowns were scored by Vasco Bright, ace quarterback of the Bobcats.

Hope Scores First

Hope got off to a lead in the opening quarter, scoring about five minutes after the kickoff when a weak punt gave the ball to Hope on the Byrd 20-yard line. Bright, in two attempts, went round right end for nine yards. On the next play he found a hole in the line and ran to the 15-yard line.

Bright and Eason made another first down through the line to place the ball about the one-yard line where Bright went through right tackle and across the line standing up for the first score of the game. W. Parsons kicked goal.

After being held scoreless in the first period, Byrd showed a powerful offensive drive that carried the team to two touchdowns in the second quarter. Richardson, halfback, and Feducia, quarterback, making the scores. The half ended with Byrd leading, 12 to 7.

Shreveport put over a touchdown in the third and final quarters. Hope's second marker came late in the fourth period as the result of the most thrilling play of the game. Byrd had punted out of bounds on Hope's 10-yard line. Bright fired a pass to Hugh Reese, Bobcat right end, who got loose on an 85-yard run through the Shreveport team, being downed only a few feet from the Bobcat goal line. On the next play Bright was swarmed by several Shreveport players and thrown for a 17-yard loss. Bright then attempted a pass to Ramsey, end. On the play a Shreveport player was caught holding and Byrd was penalized 15 yards, placing the ball two yards from the goal line, where Bright plunged through for the score. Extra point was made.

First downs were 13 for Hope and 20 for Byrd. Hope was penalized once.

State Committee Is Called Tuesday; Election Is Near

Announcement of Special Senate Election Date Imminent

RECEIVE PETITIONS

State Committee to Consider Nominations for District Posts

LITTLE ROCK.—(AP)—Arkansas' political interest focused Saturday on the meeting here Tuesday of the Democratic State Committee as Governor Bailey's call for a special election to name a successor to the late Senator Joe T. Robinson appeared imminent.

Secretary Beloit Taylor of the committee announced that the group would consider at the meeting the making of nominations for district offices to be filled by the forthcoming special election.

He added that the committee had received petitions from the committees of several counties of the Ninth judicial circuit, and the Sixth chancery district, to designate Judge Minnie Milwee, of DeQueen, and Chancellor A. P. Steel of Ashdown, the respective party nominees. Judge Milwee filed his nominating petition Saturday.

Trading in Corn Odered Cancelled

Directors of Chicago Board of Trade Fix Settlement at \$1.10 1/2

CHICAGO.—(AP)—The directors of the Chicago Board of Trade invoked emergency powers Saturday to suspend trading in September corn and end the market deadlock between traders in this commodity.

The board ordered settlements of all open contracts at \$1.10 1/2 a bushel.

Bernice Felton Is Indicted by U. S.

Acquitted in Brockelhurst Case, Faces Motor Theft Charges

LITTLE ROCK.—Bernice Angeline Felton, 18, of Rockford, Ill., who was acquitted of complicity in the murder of Victor A. Gates of Little Rock in Lonoke Circuit Court June 24, was indicted for violation of the National Motor Vehicle Theft Act by a federal grand jury here Friday.

Miss Felton was a companion of Lester Brockelhurst, so-called "grim tourist," who was sentenced to death for the slaying of Gates, the same day the girl was acquitted.

Evidence at the trials of Brockelhurst and the Felton girl showed that Gates was slain in his automobile, after he had "picked up" the couple as they walked along the Little Rock-Lonoke highway. The pair drove the car to New York state where they were apprehended by a New York state trooper.

Following acquittal of the Felton girl on charges of the murder of Gates, United States District Attorney Fred A. Isgrig filed charges of violation of the Dyer Act against her in United States District Court here. She was released on \$1,500 bond following her arraignment June 26.

The girl contended following her arrest and return here to face charges of murder that she knew that the automobile was stolen, but that she had no agreement with Brockelhurst to steal a car. She said that she did not drive the stolen car across any state line, which is a violation of the Dyer Act.

Newlyweds Pay Bill as the Town Dances

Special Session of Congress Is Likely

Senator Caraway Thinks President Probably Will Call It

LITTLE ROCK.—(AP)—Senator Hattie Caraway said Saturday that, "It now appears the president may call a special session of congress."

"When I came home I thought there was no likelihood of a special session," she added.

Senator Caraway said many hold that the session is necessary to enact farm legislation, that the president feels it would shorten the next regular term, and permit members to return home earlier for campaign activities.

Cite Rising Costs for Rail Layoffs

Thousands Reported Dropped—Demand Increased Rail Rates

WASHINGTON.—(AP)—Major railroads disclosed Friday they are laying off thousands of employees. The move, they said, was necessitated by higher operating and maintenance costs. The disclosure was made when executives gathered here for the monthly meeting of directors of the Association of American Railroads.

At about the same time the A. A. R. released weekly statistics which showed that carloadings from January 1 through September 18 totaled 28,198,399 cars or almost 3,000,000, over the 25,366,300 loaded in the comparable period in 1936. In 1930, the carriers consider as the year offering the best "average figure" in the last decade, 24,205,038 cars were loaded through September 18.

Officials insisted that although business is improved over 1936, costs have gone up and carriers are losing a substantial part of their proportionate share in trucks and other forms of transportation. It was said that the New York Central, the Pennsylvania and the Baltimore & Ohio had dismissed more than 20,000 employees since September 1.

Other officials acknowledged reduced pay rolls, but withheld figures. Part of this reduction was seasonal because 1937 maintenance programs are approaching completion.

All said that increased passenger fares and a boost in freight rates are the only solution. It was said that the only solution would be to take the merit examinations for positions in the Employment Service scheduled for October 8 and 9 in Arkansas.

City of Hope to Be Host at Spring Hill Wednesday

Electric Display at Various Booths Wednesday Afternoon

BARBECUE, CONCERT

These to Be Held Between 6 and 7 p. m.—With Speaking at 7

Citizens of Spring Hill and the City of Hope were completing arrangements Saturday for the electric exposition and dedication program to be held in the southern Hempstead county town Wednesday, September 29, celebrating the turning on of current in the new rural electrification project.

The entire county is invited. Outstanding in the day's events will be a free public barbecue, prepared by the people of Spring Hill and paid for by the City of Hope.

Arrangements for the barbecue are being made by Spring Hill's school board with the Baptist and Methodist church women of Spring Hill, who will serve the barbecue and other refreshments.

Events at Spring Hill Wednesday will be opened shortly after noon by the display of electrical appliances in booths arranged in the Spring Hill schoolhouse by Hope merchants and state distributors from Little Rock.

There will be an open house at the school during the afternoon, with lecturers for housewives and the public by the sales staffs in charge of the booths. A plat of the school's interior has been prepared, to aid the stores in planning their booths.

At 6 o'clock Wednesday night the Hope Boys Band will arrive at Spring Hill and play until the opening of the formal dedication program at 7 o'clock. The barbecue will be served just prior to the dedication program, between 6 and 7.

The Tentative Program

On the tentative speaking program will be:

Invocation by the Rev. R. A. Crain of Spring Hill.

A history of Spring Hill by one of its own citizens, Frank Hill.

Greetings from the City of Hope by Mayor Albert Graves.

Speeches by members of the State Utilities Commission, Little Rock.

Story of electricity, by visiting speakers from the national electric industry, still to be announced.

Musical numbers from both Spring Hill and Hope.

Co-operating with the City of Hope in Wednesday's celebration are the Spring Hill school board:

E. E. Phillips, President; R. A. Johnson, secretary; J. A. Smith, W. E. Monroes and Rufus Anderson.

Employment Group to Meet in Hope

Daily Conferences Here This Coming Week on Re-employment

A series of public relations meetings will be held next week under the auspices of the Hope office of the National Reemployment Service to discuss subjects relating to the purposes and operation of the Service, according to an announcement Saturday by G. T. Cross, manager.

Among the subjects to be covered in the series are: Background and Objectives of the Employment Service, Interviewing, Research Work of the Department of Labor, Maintenance of Contacts with Applicants, Employer Contacts, the Wagner-Peyser Act, State Labor Laws, etc.

The meetings will be held in the Hope office of the Employment Service each afternoon from 4 to 6 o'clock, beginning Monday and concluding with the Friday afternoon session. The discussions will be of particular interest to those who expect to take the merit examinations for positions in the Employment Service scheduled for October 8 and 9 in Arkansas.

Interior Views of Homes in Federal No-Profit Town

Modern homes for 885 families whose incomes range from \$1000 to \$2000 a year are now open at Greenbelt, the community seven miles from Washington which has just been completed by the Farm Security Administration at a cost of \$14,227,000. Here are three glimpses inside one of the homes, where rents range from \$300 to \$400 a year—a housewife in her model kitchen, a tastefully-furnished living room, and a youngster in a typical bedroom.

Tax Truths as Brake on Public Spending

WORKING on the theory that what you don't see doesn't hurt you, our American legislators have succeeded, since the war, in building up one of the most amazing systems of invisible taxes ever erected on the planet.

The result is that the tax collector manages to gouge the daylight out of the little fellow without ever drawing a word of protest.

Indeed, the little fellow seems to like it. One of his favorite diversions is to compare his lot with that of his opposite number in Great Britain, where taxes are as visible as cigarette billboards. He looks over the figures and discovers that the Briton has to start paying an income tax as soon as his earnings amount to \$750 a year—which takes in practically everybody. The American doesn't start until his income reaches \$1000; if he is married, he can earn as much as \$2500 before he has to lay anything on the line.

So, looking at the figures, the American pities the poor Briton as one who is taxed within an inch of his life, and thanks his God that in this country it is the rich man who pays the taxes.

Which is precisely where the American fools himself.

x x x

JOHN T. FLYNN pointed out the other day that an ordinary American with an income of \$4000 a year will pay some \$28 in income taxes, after he has made the proper deductions. An American with an income half that size may pay no income tax at all—but if he buys one package of cigarettes a day he pays a tax of \$21.90 a year, and if he has a couple of daily glasses of beer, in addition, his tax will run to \$45.

The \$28 income tax may cause the citizen to kick like a steer. The almost equally heavy tax he pays for the privilege of smoking cigarettes causes no kick at all, because he doesn't realize that he is paying it. It is invisible, and therefore painless.

If these hidden cigarette and beer taxes were the only ones, it wouldn't be so bad. But they are just a small part of the picture. For the plain fact is that 70 per cent of the taxes collected in this country are of the invisible variety. There are gasoline taxes, cosmetics taxes, taxes of innumerable kinds on retail sales, doubly hidden taxes deriving from the tariff—until, according to the Twentieth Century Fund's recent study, a New York wage earner who makes \$1000 a year has to pay \$123 of it in taxes.

x x x

TRY to collect that \$123 from the wage earner as a direct tax and he will howl to high heaven. Collect it indirectly and he never sees it—and, consequently, never utters a peep.

We need a day-by-day educational program about these taxes of ours. The ordinary citizen is paying for today's spending program, and paying right through the nose. If he once realized the fact, he would begin to apply pressure that would cut the spending program down to a reasonable size.

Hat-Checking Costs

IF you like to think of yourself and your fellow Americans as sturdy and independent people, consider the case of the New York gentleman who, buying a new hat, set out to keep track of the money it would cost him in tips to hat check girls in restaurants, theaters, and night clubs.

In one month, he discovered, this hat cost him exactly \$9—and the hat cost only a dollar in the first place!

The only difference between this New Yorker and the rest of us is that we don't go around quite so much. When we do get around, we pay the hat check girl meekly and without thought of protest. Yet the hat check racket is a petty graft that only a completely house-broken people would put up with. It certainly ought to be up to the proprietor of a place of public entertainment to give his patrons a place to put their hats, and to give it to them for nothing. If we were half as sturdily independent as we like to think we are, we would never put up with the present system.

The Family Doctor

T. M. Reg. U. S. Pat. Off.
By DR. MORRIS FISHBELN
Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine.

Cancer Type Differs in Men, Women; Study Proves Disease Not Contagious

This is the seventh in a series by Dr. Morris Fishbeln in which he discusses the types of cancer, its effect on the body, and measures for prevention and cure.

(No. 328)

The question has been raised as to the types of cancer which occur in men and women. In women, the breast and the uterus seem to be the spots chiefly affected. Cancer of the breast occurs in men only about one in a hundred as compared with cases among women.

Cancer of the stomach is more frequent in men but cancer of the gall-bladder occurs four times as often in women.

Cancers of the lips, tongue and mouth are found much more frequently in men than in women. This has been related largely to the practice of smoking. Men have in the past smoked much more often than women. Moreover, women are much more likely to keep their teeth and mouths clean than are men.

In Ceylon, India, cancer of the mouth is five times as frequent among the natives as among the white people who live under the same conditions.

It has been suggested that cancer might be contagious. Recent investigations have shown, however, that contagion is impossible. There are no records of surgeons who caught cancers of the hand from operating on

people who had cancer.

There is no proof that cancer is a germ disease. True, it is possible to transplant a cancer from one rat to another. In such cases, however, it is first necessary to inoculate at least 100 animals to obtain three or four growths from a cancer and it is necessary to irritate the tissues exceedingly to stimulate them to cancer growth.

Moreover, it is not possible to transfer a cancer from a human being to any animal or from any animal to a human being. The cancer from a white mouse can be transferred to another white mouse but not to a wild black mouse.

Because of the general fear of cancer, all sorts of wild stories have been circulated about "cancer houses" or "cancer districts" in which most of the people are said to suffer from this disease. Investigations have been made of such places but scientific study has shown there is nothing to this belief.

Some districts have more cancer deaths than others because the younger people have gone away from these places and only the old people remain. Just because they are old, more of them die of cancer.

NEXT—Irritation as a cause of cancer.

He was just so darn mean I had to shoot him.—Andrew Buck, 83, Racine, Wis., explaining why he peppered his son-in-law with buckshot.

Law Critics Are Hit by President

Roosevelt Plays "Lip Service"—Hopes to Stay Out of War

CASPER, Wyo., (P)—President Roosevelt said Friday that "constitutional government in this country is succeeding despite obstacles being placed in its way by those who do not want to see it work." He said the government could get along without those who give "lip service" to objectives by opposing methods of attaining them.

That type of person has less influence in our government today than ever before in our history," he said in a year platform talk after a drive through this Central Wyoming town.

Democratic processes of government can meet emergencies, the president said. Unless those emergencies are met, he added, uncertainties and fears are likely to result, as they did in 1933. Fears result, too, in dictatorial governments, he declared.

Mr. Roosevelt said he was sure the rank and file of people in the United States approved the objectives of their government.

"Yes, the country is thinking nationally," he said. "We are not only acting but thinking in national terms."

It's all right for the government to start the business cycle upgrade, but it ought to make some of the handlebar riders pump.

BARBS

Japan evidently is irked because China failed to heed the machine gun typewriting on the Wall.

The value of developing a hobby is illustrated by circus aerialists who often have little to fall back on when they lose their grip on the job.

It's all right for the government to start the business cycle upgrade, but it ought to make some of the handlebar riders pump.

Camden, DeQueen, Jonesboro, Blythville and Walnut Ridge Winners of Grid Tilts

Camden Runs Wild to Pile Up 52 to 6 Score Against Nashville—DeQueen Is Hard Pushed to Score 20 to 13 Victory Over Horatio

CAMDEN—Scoring eight touchdowns in the first three quarters, the Camden Panthers defeated Nashville's Scrappers, 52 to 6, before 1,500 fans here Friday night. It was the worst defeat a Camden team ever gave Nashville.

Nashville did not make a first down until late in the fourth period, when Coach Sam Coleman had sent in his second team. In that period Arnold passed to Edwin for a 34-yard gain and a touchdown for Nashville's only score.

Camden scored soon after the game opened when Stern plunged over after Kizzia had passed 35 yards to Blair.

Mussolini, Hitler Meet at Munich

Europe Awaits Word of Conversation Between Two Dictators

MUNICH, Germany.—(P)—Benito Mussolini and Adolf Hitler met Saturday for the second time in their spectacular careers.

Europe tensely awaited the result of their rendezvous.

The first few hours of their visit were devoted to social activities. Serious "business" conversations of the two men either were sandwiched into the nine-hour program in Munich or were postponed until later.

That is a statement with which only those who are blindly partisan will disagree.

He made his extemporaneous talk after a motor trip to Fort Casper, a pioneer landmark restored by a WPA project.

In a brief appearance at Wendover, Wyo., Mr. Roosevelt earlier had said his first word of the trip about international affairs.

"We are going to stay out of the war," he shouted some one in the crowd.

"I hope so," Mr. Roosevelt replied. "One reason I can't make this trip any longer is the international situation. The international situation is not so good and I don't dare stay away from Washington too long."

The waters of the Echo river, in Mammoth Cave, Ky., abound in several species of eyeless fish, as well as blind crayfish, flies, beetles, and spiders.

An unknown trader first brought the peanut to America in the 18th century. Today it is a major crop in Virginia, where it first was planted in the United States.

Then Kizzia scored again a few minutes later from the four-yard line after recovering a fumble.

The Panthers made two more in the second period.

Kizzia and Collins scored two touchdowns each and Stern, Blair, Langley and Gillespie made one each. Camden made 22 first down and completed 10 passes for 222 yards.

It was Camden's second victory, Nashville's first defeat in three games. Camden will play Monroe, La., here next Friday night.

HORATIO, Ark.—The De Queen Leopards were forced to extend themselves to their utmost to eke out a 20 to 13 victory over the Horatio Lions.

The first touchdown for Horatio was scored in the closing minutes of the second half to tie the score here Friday afternoon.

The Leopards scored early in the third quarter when Hendricks, half-back, broke through for 32 yards and a touchdown. The place kick for point failed.

Horatio tied the score a few minutes later with a 23-yard pass, Griffin to Sargent, to the De Queen one yard line. Griffin carried the ball over but a plunge for the extra point failed.

De Queen scored again when they recovered a Horatio fumble on the latter's 25 and completed two passes for the distance, Gardner, end, carrying the ball over and Hendricks adding the point.

The Lions added their second touchdown by passes to Bourns and Sargent to put the ball on De Queen's one yard line from where Bourns carried it over and Griffin added the point with a line play to again tie the score 13-11.

The deciding touchdown was made by the Leopards in the final period on a lateral pass play, Aubrey, quarterback, going over and Hendricks place kicking for the point.

Poole at end and Perk at center were outstanding for Horatio. Hendricks and Aubrey, quarterback, were consistent ground gainers for the visitors. The downs were even at nine each.

Jonesboro Whip Trojans JONESBORO—The Jonesboro, High School Golden Hurricane scored a 19-0 victory over the Hot Springs Trojans here Friday night, their first over Hot Springs in six years.

Jonesboro began its attack in the opening period but lost the ball after twice advancing into scoring position. Milton Pharis broke loose for 19 yards and the first score in the second quarter. He scored again in the final period on a plunge through the line.

Willard Tilley scored Jonesboro's second touchdown in the third period on an off-tackle play after dashes by Mutt Alexander had placed the ball in scoring position.

The Trojans' only serious scoring threat in the closing minutes of the game, advancing to the Jonesboro six-yard line, where they were held for downs.

The last quarter was played in a downpour of rain.

Blytheville Chicks Win BLYTHEVILLE—The Blytheville High School Chicks opened their 10-game campaign with a 65-to-9 win over the Piggott Mohawks here Friday night.

Coach Joe Dildy kept a parade of substitutes going into the game, working his regulars only for brief intervals. Thirty-two players saw service for Blytheville.

Hope Bows To

(Continued from Page One)

for 15 yards, Byrd suffering five penalties for a loss of 35 yards. Hope put up a game fight throughout the contest. The Bobcats were outweighed five pounds to the man. Captain G. V. Keith and Guard Johnny Wilson suffered injuries and only saw part of the game. Mize, a yard starting fullback, was knocked out and removed from the game.

The First Quarter Byrd received, Mize being forced out of bounds on the 12-yard line by W. Parsons. Johnny Wilson, Hope guard, was injured on the next play and was replaced by Major Simpson. Byrd attempted two more plays and then Mize got off a weak punt that gave Hope the ball on Byrd's 30. Bright made nine yards in two attempts. Fullback Joe Eason and Bright then made it a first down on the 15. Bright made five. Eason and Bright then carried it to the one-yard line where Bright went through right tackle and across the goal line standing up. W. Parsons kicked goal.

A punting duel followed that left the ball in midfield in Byrd's possession. Sweeney got loose on a 15-yard run around right end. A pass from Leo Bird to Feducia, quarterback, placed the ball on the four-yard line as the quarter ended.

Second Quarter Richardson dashed around right end on the first play to score Byrd's first marker. Leo Bird's attempted place kick was blocked by Pat Ramsey. Hope received, half being kicked on the 35. From that point Bright picked up 15 around right end. Eason fumbled left tackle for five. Bright plodded pass to Reese for first down, putting the ball on Byrd's 35. Hope was held for downs and Bright punted out on the seven-yard line. Byrd started a march that was not stopped until the team reached Hope's two-yard stripe. It was an 89-yard march up the field on a series of running and passing plays, featuring Feducia, Richardson and Sweeney. Nearing Hope's goal, Captain G. V. Keith was injured and was replaced by Jewell Still.

The ball went to Hope and Bright, backed up behind the goal line, attempted to punt out of danger. A weak pass came back and he booted a weak punt that gave Byrd the ball on Hope's 25. Feducia hit the line for eight yards and then passed to Sweeney who was downed on Hope's two-yard line. Feducia went over on the next play that put Byrd in the lead for the first time. Leo Bird's attempted placement was wide.

Hope received, Bright being downed on his 35. Bright passed to Ramsey for 15. Eason went through the powerful Byrd line for eight yards. Bright made it first down on a fake punt play. The old hidden-ball play was the next maneuver that saw W. Parsons get away for 6 yards. Eason, Hope's rapidly developing fullback, plodded at the line for more yardage and was finally brought down on Byrd's 12-yard line. Hope had traveled about 55 yards in this time and there was about five seconds left in the half. Bright chose to pass. Richardson intercepted and ran 50 yards up the field, being brought down by the speedy Aslin and Bright as the half ended.

Third Quarter Wilson replaced Simpson at guard and then Hope received, Aslin returning to the 35. Bright was stopped after a three-yard gain. The hard-driving Eason went off tackle for 18 yards, carrying the ball to Byrd's 45. Hope was held and Bright punted. Ramsey downing the Byrd safety man on his own 15, Orribson, Richardson and Feducia mixed an assortment of running and passing plays that carried the ball up the field. Hope halted the attack and gained possession on its 18. Hope was penalized 15 yards when Eason intentionally grounded the ball after being thrown for a loss. From behind the goal line, Bright punted. Orribson taking the ball on the 30 and running for touchdown. The play was nullified and Byrd was penalized. Feducia made 10 on two plays. He made another four yards. Hope stifened and on the fourth down Captain Keith smeared the play, giving Hope possession on its own 15.

Right here is where Byrd got a break that resulted in touchdown. Hendrix, center, intercepted a pass and ran to Hope's five-yard line. Richardson plunged for the touchdown. Attempt for extra point failed. Bright passed, Bright returning to his 30. He made five yards and then Leo Bird intercepted a pass in midfield as the quarter ended.

Fourth Quarter Byrd made a first down and then Leo Bird punted over the Hope goal line. Hope took the ball on its 20. Bright passed to W. Parsons for 11 yards. Bright made four through the line. After no gain on two following plays he punted, Leo Bird returning to midfield. Feducia made four and Sweeney got loose on an end run that carried the ball to Hope's 22-yard line. Byrd's big line began to wear down the Bobcats as Sweeney plunged for 10 more and Richardson made it eight, putting the ball only a few yards from the Bobcat goal. Bird flipped a pass to Sweeney for touchdown. Bird converted for extra point.

Hope received, Aslin returning to his 35. Aslin went around end for eight. Hope was held and Bright punted, Bird being downed on his 40. Bird passed to big Bob McCraw for 30 yards. Line plays carried it to Hope's 35. Hope's line held and Bird punted

It's A Racket

An Australian has developed a calculating machine that solves problems by tracing curves on a piece of paper. One in every phone booth would speed the world's work.

Legal Notice

COMMISSIONER'S SALE

NOTICE IS HEREBY GIVEN, That in pursuance of the authority and directions contained in the decretal order of the Chancery Court of Hempstead County, Arkansas, made and entered on the 6th day of September, 1937, in a certain cause then pending therein wherein G. B. Rowe was complainant and W. B. Rowe et al. were defendants, the undersigned, as Commissioner of said Court, will offer for sale at public vendue to the highest bidder, at the front door or entrance to the Citizens National Bank Building in the City of Hope, in Hempstead County, Arkansas, within the hours for judicial sales, on Saturday, the 16th day of October, 1937, the following described real estate situated in Hempstead County, Arkansas, to-wit:

The Southwest Quarter of the Southeast Quarter (SW¹/₄) of Section Twenty-three (23), in Township Nine (9) South, Range Twenty-six (26) West, containing 40 acres, more or less; also one-half of the West Half of the Southwest Quarter (W¹/₂ SW¹/₄) of section Ten (10), Township Ten (10) South, Range Twenty-six (26) West, except the following described tracts of land, to-wit: Commence on the north or east side of the right-of-way of the Arkansas and Louisiana Railway, 250 feet north of the point where said Railway crosses the section line between Sections 10 and 15, in Township 10 South, Range 26 West, and thence east 50 feet to the point of beginning; thence north 100 feet, thence north 150 feet, thence west 250 feet to within 50 feet of said right-of-way, run thence southerly parallel to said right-of-way 150 feet back to the point of beginning; also commence on the north side of the right-of-way of the Arkansas and Louisiana Railway Company 400 feet north of where said Railway crosses the section line between said Sections 10 and 15, at the northwest corner of H. Bright's one-acre lot, the point of beginning, run thence north along the north line of said lot 280 feet, thence north 150 feet, run thence west 280 feet, thence south parallel to said right-of-way back to the point of beginning; also begin on the section line 29 rods north of the southwest corner of Section 10, in said Township 10 South, Range 26 West, and run thence east 120 yards to the point of beginning; run thence east 18 rods, thence north 18 rods, thence west 18 rods, thence south along the section line 9 rods back to the point of beginning (except, however, the right-of-way of said Railway Company); also begin at the southeast corner of Catherine Gambill's lot, and run 165 feet east, thence 200 feet north, thence 150 feet west, run thence 200 feet back to the point of beginning; also commence at the southwest corner of the SW¹/₄ of Section 10, in said Township 10 South, Range 26 West, and run thence east 120 yards to the point of beginning; run thence east 18 rods, thence north 18 rods, thence west 18 rods, thence south 18 rods back to the point of beginning, containing 2 acres, more or less; also commence at the southeast corner of said Catherine Gambill's lot and run thence east 165 feet to the point of beginning, run thence north 150 feet, thence east 100 feet, thence south 150 feet, thence west 100 feet back to the point of beginning; also one-half acre in the northwest corner of the SW¹/₄ of said Section 10, in said township and range,—the same being all the land owned by the said Harry Reed in the W¹/₂ SW¹/₄ of said Section 10 at the time of his death.

TERMS OF SALE: On a credit of three months, the purchaser being required to execute a bond as required by law and the order and decree of said Court in said cause, with approved security, bearing interest at the rate of eight per cent (8%) per annum, from date of sale until paid, and a lien being retained on the premises sold to secure the payment of the purchase money.

Given under my hand this 15th day of September, 1937.

RALPH BAILEY
Commissioner in Chancery

Sept 25, Oct 2
